SUMMARY

9-year industry veteran with experience scaling web3 brands via strategic editorial voicing, stewardship of developer communities, and multi-organizational collaborative efforts. I founded an 18.5k subscriber-base crypto educational initiative. I thrive in new tech experimentation; having enhanced workflows with bespoke agentic frameworks that translate across any and all organizations.

EXPERIENCE

Founder

Aug 2024 – Present

90 Seconds to Crypto, Global Remote

- Built and scaled a solo-operated [crypto education channel](#) to 18.5k YouTube subscribers and 130+ videos, with top-performing content generating [20k+ views](#) on X and [120k+ views](#) on Reddit
- Delivered strong audience metrics across platforms: 680k+ lifetime impressions, 4.2k watch hours, 5% CTR, and 50% average view duration on top YouTube performers
- Owned the end-to-end full funnel content engine across research, scripting, filming, production, & marketing
- Regular collaborations w/ core contributors across the industry including [Railgun](#), [Fileverse](#), [Ethereum Foundation](#), [Gnosis Guild](#), and many more in scripting, filming, publishing, and co-launching videos
- Architected and operated a production AI intelligence system using OpenClaw & Hermes agent harnesses and multi-model routing mechanisms to automate competitive research, narrative detection, and sentiment analysis — turning fragmented attention signals into actionable content decisions

Stack: Python, OpenClaw/Hermes (agent harness), Claude (Opus/Sonnet), GLM-5.2, Minimax-3, GPT-5.5, OpenRouter, Dune Analytics, YouTube Data API, YouTube Analytics API, Google Calendar API, Google Ads, X API, SocialData Tools API, Playwright, searXNG, multi-chain web3 tooling (Hyperliquid, 0x, Across), self-hosted node operation;

Developer Advocate

Jan 2022 – Jan 2025

ChainSafe, Global Remote

- Spearheaded developer marketing for [web3.unity SDK](#) and the [Sygma](#) cross-chain interoperability protocol
- Co-led Sygma's first in-person [hackathon](#) (Devconnect Istanbul 2023): 75% submission rate, 70% participation rate, 25+ engineering issues triaged
- 500+ [contributions](#) to technical documentation across multiple SDKs — git-native workflow, branch management, PR review process
- 35+ mid-to-bottom funnel content pieces ([tutorials](#), integration guides, developer case studies)
- Bootstrapped Sygma Discord to 500+ members; grew Telegram community 700%
- Produced "[Behind the Code](#)" developer interview series, yielding 10 episodes
- ChainSafe Discord admin: 7K+ members, 17K+ messages moderated in Q2 2023
- [ChainSafe YouTube](#): grew to 2K+ subs, 220+ videos, 1.8M lifetime impressions, 5% CTR, >30% avg view duration

Communications Lead

Jan 2021 – Jan 2022

ChainSafe, Global Remote

- First dedicated marketing & comms hire, bootstrapping core marketing function from zero
- 300%+ [Twitter](#) growth, 500%+ [LinkedIn](#), 2,000%+ YouTube, 800%+ [Medium](#) in 12 months
- Produced [100+ blog posts](#), 220+ videos, 3K+ tweets
- Built ChainSafe's first internal marketing request system: 300+ cross-org tickets triaged & managed

- Lead organizer for [CSCON\[1\] virtual summit](#), serving 500+ attendees, 46 speakers (Tim Beiko, Juan Benet, Joe Lubin), and producing 40+ videos
- Led global conference strategy for 8+ major web3 events including EthCC, LisCon, EthDenver, Devconnect, Devcon, BlockSplit, Taipei Blockchain Week, Asia Blockchain Summit, and more
- Live-tweeted conference sessions that drove 100K+ organic views
- Built and maintained a Substack newsletter called [Centralization Strikes Again](#)

SKILLS

- **web3:** Crypto-native product and community knowledge | Onchain research | Developer relations | Protocol mechanics | DeFi mechanics | Ecosystem strategy | ProgCrypto mechanics
- **AI & autonomous systems:** Agentic system design | Multi-agent orchestration | Prompt engineering | POLA/POLP enforcement | Autonomous workflow design | Prompt injection defense | Loop engineering | Advanced memory management
- **Content & Media:** DaVinci Resolve | OBS | YouTube Studio | Long-form scriptwriting | Developer content | Technical documentation | Corporate blogging
- **Infrastructure:** VPS management | nginx | systemd | HTTPS/TLS | API integration | WhatsApp/calendar automation
- **Code:** Python (working knowledge) | Git (branch management, PR workflow, commit hygiene) | Docusaurus
- **Languages:** English (native) | Cantonese (native) | Mandarin (fluent)
- **Other:** Non-Violent Communication (NVC) practitioner

VOLUNTEER

- **Ethereum Developers Meetup Toronto 2021–2024:** co-organizer, [30+ talks](#)
- **COSCUP Taiwan 2024, 2025:** stage MC, booth volunteer
- **Devcon 7 Bangkok 2024:** operations volunteer
- **Devconnect Istanbul 2023:** registration volunteer
- **Schelling Point Bogotá 2022:** operations volunteer

EDUCATION

Bachelors of Business Administration – Wilfrid Laurier University, 2007–2011

SELECTED ACHIEVEMENTS

- Ethereum Foundation "Run A Node" Grant recipient
- Bitcoin Grants Privacy Round 24: 143 votes, ranked #20 of 96 projects
- Three 10-day Vipassana silent meditation retreats
- Hiked Everest Base Camp with a torn MCL
- Relocated to Taiwan; achieved Mandarin proficiency
